

ARCTIC SUMMER COLLEGE CALL FOR APPLICATIONS

Ecologic Institute and its partners are pleased to announce the 2015 Arctic Summer College and are seeking applications from emerging leaders working to improve Arctic governance from around the world.

The Arctic Summer College creates and sustains a network of emerging leaders and experts that will be brought together for 8 weeks in a series of web-based seminars (webinars) Thursdays from 18:00-20:00 Central European Time from June 25 to August 13, 2015. The program aims to continue to build a lasting, policy-oriented network of Arctic professionals to strengthen communication between peoples and nations, scientific disciplines, policy areas, and across the science-policy interface to improve governance and sustainable development in the Arctic.

Weekly webinars are hosted by Ecologic Institute, with participants joining from around the world. Each week expert speakers present on selected topics and participate in discussions with Fellows. Every Fellow will work towards an open source publication over the course of the Arctic Summer College based upon the abstracts to be submitted with this application. Participants from each year build relationships through online platforms in a sustained Arctic Summer College Community. Fellows will receive copies of presentations, reports, and print materials and will be given opportunities for publication of new material via social media platforms. Outstanding contributions by Fellows will be considered for publication in "[Arctic in Context](#)." Two selected Fellows will be invited to present their papers at the Arctic Circle Assembly 2015 (October 16-18) in Reykjavik, Iceland.

Participation in the Arctic Summer College is open to applicants (students and professionals) with ideally a minimum of two years of studies and/or experience in a related field, and a desire to share perspectives and seek professional collaboration with a network of peers. The course will be conducted in English. Applicants will be informed about the outcome of the selection process by June 19, 2015.

Information is available online at arcticsummercollege.org

[Applications will be accepted until June 11, 2015.](#)
